**EXHIBITORS OF
THE GERMAN PAVILION**

Aerodata AG

835

Braunschweig | mail@aerodata.de | www.aerodata.de

Aerodata is a leading provider of Flight Inspection Systems and offers design, production, integration and training of turn-key airborne special mission solutions (AeroMission). Together with its subsidiary OPTIMARE the company is also well known as provider of high-end solutions for Special Mission Aircraft in operation for airborne maritime surveillance, environmental monitoring, reconnaissance & persecution and border/coastal control, fishery patrol and Search & Rescue by corresponding forces.

Optimare Systems GmbH | Bremerhaven | www.optimare.de

AMAG components Übersee GmbH

639K

Uebersee | sales@components.amag.at | www.amag-al4u.com

AMAG components has more than 60 years of experience in the production of aluminium and titanium components and ready-to-install parts for the international aerospace industry.

BAC Digital Avionics

639B

Oberding | bac-components@freenet.de

Engine Monitoring, Heads BT-ANRAircraft Instruments, Airport Consulting, Services Avionics, Manufacturing Propeller, Overhaul Airport, Ground Equipment.

BDLI e.V. German Aerospace Industries Association

639

Berlin | kontakt@bdli.de | www.bdli.de

The German Aerospace Industries Association (BDLI) represents the interests of the German aerospace industry with around 250 members and 100,000 direct employees.

Almost all strategic key technologies are represented by it. Turnover amounts to €31.5 billion (2021). The major tasks of the BDLI include communication with political institutions, authorities, associations and foreign representatives in Germany, as well as various member services at home and abroad. The association is the trademark owner of ILA Berlin, which will take place at Berlin-Brandenburg Airport from June, 5-9 2024, under the motto "Pioneering Aerospace".

The logo for TELEX, featuring the word "TELEX" in a bold, black, sans-serif font with a registered trademark symbol (®) to the right. The letters are underlined with a thick black line.

Bosch Sicherheitssysteme GmbH (TELEX)

639C

Straubing | martina.hirtreiter@de.bosch.com | www.telex.com

For more than 50 years, Telex innovations have provided pilots with the quality communications they depend on for safe, enjoyable flying. Only Telex offers the unmatched combination of advanced microphone technology, superior noise protection, comfort, and reliability. To learn more, visit www.telex.com/aviation

Boysen GmbH

Hamburg | info@boysen.aero | www.boysen.aero

Boysen Aerospace is a Bossard company and one of the leading providers of fastening technologies and services in the aerospace industry.

637

The logo for Boysen Aerospace, featuring the word "Boysen" in a large, blue, serif font with a horizontal line underneath. Below "Boysen" are the words "A E R O S P A C E" in a smaller, blue, sans-serif font, with spaces between the letters. At the bottom, it says "A Bossard Company" in a small, black, sans-serif font.

DIEHL Aviation

Diehl Aviation Laupheim GmbH

743

Laupheim | gmb-a-dac-exhibition-marketing@diehl.com | www.diehl.com

Diehl Aviation is a first-tier supplier for avionics solutions and preferred partner for cabin integration. The integrated product portfolio consists of interior lighting and air distribution systems, crew rest compartments, floor-to-floor lining as well as galleys - also available as retrofit solutions. Systems for water and air management, fire protection, further cabin electronics and a worldwide customer service complement the company's portfolio.

Dornier Seawings GmbH

730

Wessling | michael.muser@dornierseawings.com | www.dornierseawings.com

Dornier Seawings is the manufacturer of the Seastar - a multi-purpose amphibious aircraft delivering unmatched versatility at low operating costs.

faavio GmbH & Co. KG

639G

Engen | info@faavio.com | www.faavio.com

We are there to support creating standard and customized solutions. As owner-managed company, we provide personalized performance and service, enabling you to focus core business.

F.A.S.T. – Future Aviation Simulation Technologies GmbH

639A

Berlin | contact@fast-group.aero | www.fast-group.aero

F.A.S.T. is an emerging and innovative company, aiming to deliver state-of-the-art flight simulators for eVTOLs and helicopter hoist operations simulators.

FlexiCAM GmbH

Eibelstadt | Info@FlexiCAM.com | www.FlexiCAM.com

639H

With constant innovations to the product line and commitment to high-quality products with an excellent price-performance-ratio, FlexiCAM has become a worldwide industry leader in 3-, 4- and 5-axis CNC machining centers. FlexiCAM offers state-of-the-art manufacturing solutions for the aerospace sector, such as

- High-Speed-Machining of Aluminium and Titanium Components
- Machining Composite Sandwich Panel and Honeycomb Materials
- Trimming, Drilling, and Cutting of Composite Parts and Extrusions

HYDRO Systems KG

Biberach/Baden | www.hydro.aero

741

In addition to more than 3,000 GSE products and over 25,000 tools for countless different types of aircraft and engines, HYDRO also specializes in developing complete system solutions. An extensive product-related service, broad-based engineering expertise and deep industry knowledge – acquired over decades – have combined to make us “preferred supplier” for many of our customers.

ILA Berlin: Pioneering Aerospace

639D

Berlin | ila@messe-berlin.com | www.ila-berlin.de

Every two years, ILA Berlin brings the world's aerospace industry together in the heart of Europe – the next time from 5 to 9 June 2024, when over a period of five days the Berlin/ Brandenburg region will become an international aerospace hub. Taking as its slogan #PioneeringAerospace, it will gather representatives of industry, politics, the armed forces and science. Exhibitors from around the world will present the latest developments, innovative solutions and research projects. The focus at ILA is on the key themes of innovation, new technologies and sustainability.

iwiation GmbH

639E

Markt Indersdorf | contact@iwiation.com | www.iwiation.com

Improving Aviation Safety ! Accident data reconstruction to identify root cause and human factors. Creation of lessons learned content.

Kappa optronics GmbH

639I

Gleichen | s.brinkmann@kappa-optronics.com | www.kappa-optronics.com

Cameras and vision systems for aerospace applications: Kappa optronics has more than 40 years of experience in cameras for anything that drives or flies. Focus on flight test cameras (FTI), ED-155 recorder cameras, cameras for launch vehicles & vacuum applications, HUD cameras, cargo/cabin/cockpit door surveillance. Outstanding experience and performance in AAR vision systems. "Best Innovator Overall" Award 2019 by Airbus Defence and Space. Kappa is EN / AS 9100 certified

Mena3D GmbH

Regensburg | contact@mena3d.com | www.mena3d.com

Mena3D provides the latest state of art technology in reverse engineering, inspection, quality control, traditional surveying, GPS, GIS, UAV, and 3D laser scanning and software.

638

Metalux Metallveredelung GmbH

630

Altlussheim | hendrik.delrosario@metalux.de | www.metalux.de

Metalux is a medium-sized company in the field of surface technology, which has provided high performance at a fair price for over 30 years. Our customers represent leading industrial sectors worldwide. We stand for broad, diverse industry know-how, innovation and certified top quality in the finishing programs.

As a strategic partner, we offer support as early as the design phase. This allows us to identify and boost savings for our clients and suggest the optimal finishing for each component.

Mototok International GmbH

740

Krefeld | wierskeiser@mototok.com | www.mototok.com

Pure electrical, small, smart, cost effective, easy to integrate with minimal training the Mototok concept brings a lot advantages.

NEX

NEX Aero GmbH (THE DRIVERY GmbH)

636

Berlin | mohamed@nex.aero | www.nex.aero

NEX Aero leads sustainable aviation with cutting-edge hydrogen eVTOLs, transforming regional travel towards a cleaner, quieter future.

Optimare Systems GmbH

835

Bremerhaven | info@optimare.de | www.optimare.de

OPTIMARE Systems GmbH is a German-based leading provider of advanced sensor solutions for airborne maritime surveillance.

OPTImare [®]
A Member of Aerodata Group

The logo for Reiser Simulation and Training GmbH, featuring the word "REISER" in a bold, blue, sans-serif font. A small yellow and blue graphic element is positioned above the letter 'R'.

Reiser Simulation and Training GmbH

Berg | sales@reiser-st.com | www.reiser-st.com

631

For 30+ years, Reiser Simulation and Training has provided innovative aviation training solutions for pilots and maintenance staff of civil and military operators.

Röder Component Service Center GmbH

Egelsbach | Silke.Elbert@roeder.aero | www.roeder.aero

Roeder CSC Dubai provide efficient and high quality solutions for your concerns.

633

The logo for Röder Component Service Center GmbH, featuring a stylized blue and grey arrowhead icon to the left of the word "RÖDER" in a bold, blue, sans-serif font. Below "RÖDER" is the tagline "AVIATION EXCELLENCE SINCE 1922" in a smaller, grey, sans-serif font.

ROHDE & SCHWARZ
Make ideas real

Rohde & Schwarz GmbH & Co. KG

744

Munich | customersupport@rohde-schwarz.com | www.rohde-schwarz.com

Rohde & Schwarz provides safety and security in all airborne domains. Based on its own research and development capabilities, the independent company delivers innovative communication, intelligence solutions and components, and measurement solutions for air assets and urban air mobility.

As a proven partner of armed forces and the aviation industry, Rohde & Schwarz helps ensure air safety and security with a select range of advanced technologies, high-performance products and reliable services.

Rudolf Wulfmeyer Aircraft Interior GmbH

742

Langenhagen | d.gundermann@wulfmeyer.com | www.wulfmeyer.com

Wulfmeyer Aircraft Interior, successful supplier and partner of the international aviation industry for over half a century, has established itself as a co-creative part of an industry known for the highest quality and safety requirements worldwide.

Consequently, our portfolio, the development and production of insulation, non-textile floor coverings, high-performance adhesives and hook & loop tape as well as the manufacture of cargo covers is characterized by an uncompromising commitment to quality.

 **BERLIN VIATION SUMMIT** June 4, 2024 | Berlin

Sky Power GmbH

639F

Bad Homburg | karsten.schudt@skypower.online | www.skypower.online

Sky Power GmbH is the leading manufacturer of 2-stroke combustion and Wankel engines for UAS (Unmanned Aerial Systems) and hybrid applications.

TFC European Airline Services GmbH

639J

Essen | avi@tfc-kaeufer.de | www.tfc-kaeufer.de

One of the leading European ATOs for professional airline training. Especially MCC, Type Ratings (A320/A330/A350/B737/B747/B777/B787).

The background is a complex, low-poly geometric pattern of various shades of gray and white. A prominent feature is a large, bright yellow triangle on the right side, pointing towards the center. The overall aesthetic is modern and professional.

**MORE EXHIBITING BDLI
MEMBER COMPANIES**

AIRBUS

Airbus

870 | P08

Blagnac (France) | www.airbus.com

Airbus pioneers sustainable aerospace for a safe and united world. The Company constantly innovates to provide efficient and technologically-advanced solutions in aerospace, defence, and connected services. In commercial aircraft, Airbus offers modern and fuel-efficient airliners and associated services.

Airbus is also a European leader in defence and security and one of the world's leading space businesses. In helicopters, Airbus provides the most efficient civil and military rotorcraft solutions and services worldwide.

AUTOFLIGHT

AutoFlight Europe GmbH

AAM Hall: 78 | Static Display: S50

Augsburg | information-eu@autoflight.com | www.autoflight.com

AutoFlight is a global high-tech company whose founders and engineers have been working on next-gen mobility for decades. We are dedicated to developing and manufacturing electric aerial vehicles to provide safe and reliable logistics systems and urban air mobility solutions.

Eurofighter Jagdflugzeug GmbH

A03Hallbergmoos | www.eurofighter.com

Eurofighter Typhoon is a world leading new generation multi-/swing-role combat aircraft. As Europe's largest military collaborative programme, it delivers both air dominance and effective air to ground capability through leading-edge technologies and unrivalled performance. Eurofighter GmbH manages the programme on behalf of its Partner Companies: Airbus Defence and Space, BAE Systems and Leonardo.

The twin-engine aircraft is the effective, proven and trusted backbone of European air power and sustains 100,000 highly-skilled jobs and a network of about 400 suppliers.

HENSOLDT

735Taufkirchen | info@hensoldt.net | www.hensoldt.net

HENSOLDT helps to avert threats to armed forces and society and to protect our customers from them. We are a German champion in the defence industry with a leading market position in Europe and a global reach. We translate technological innovations into smart electronic solutions, which support defence and security organisations in their mission to make the world a safer place. This is reflecting its commitment to a sustainable future.

Lilium

Wessling | info@lilium.com | www.lilium.com

EVTOL | Hall: 84

Lufthansa Technik

Hamburg | press.pr@lht.dlh.de | www.lufthansa-technik.com

1120

We are the leading provider of aircraft maintenance, repair, overhaul and modification services for civil aircraft, from commercial to VIP and special mission aircraft.

Holding international licenses for maintenance, design and production, we provide tailored maintenance programs, modification, completion and conversion as well as innovative cabin products, material pooling or engine services. We even supply you with digital fleet support.

MTU Aero Engines AG

830

München | info@mtu.de | www.mtu.de

MTU Aero Engines AG is Germany's leading engine manufacturer. The company is a technological leader in low-pressure turbines, high-pressure compressors, turbine center frames as well as manufacturing processes and repair techniques. In the commercial OEM business, the company plays a key role in the development, manufacturing and marketing of high-tech components together with international partners.

Some 30 percent of today's active aircraft in service worldwide have MTU components on board. In the commercial maintenance sector the company ranks among the top 3 service providers for commercial aircraft engines and industrial gas turbines. The activities are combined under the roof of MTU Maintenance.

In the military arena, MTU Aero Engines is Germany's industrial lead company for practically all engines operated by the country's military. MTU operates a network of locations around the globe; Munich is home to its corporate headquarters.
