

GERMAN BUSINESS LOUNGE AT THE INTERNATIONAL AVIATION AND SPACE SALON MAKS

Zhukovsky | July 18-23

Dear Visitors,

It is a great pleasure for me to welcome you to Germany's presentation at MAKs International Aviation and Space Salon 2017. We are very glad to be part of the exhibition again!

The German presence at the leading aerospace exhibition of the Russian Federation demonstrates not only the strength and the strategic objective of the German aerospace industry to go global, but also how attractive Russia is as a business partner and how promising the prospects of further cooperation are. Economic relations are close and continue to expand even further. Especially in the aerospace, research, and development sectors, valuable potential can be used for the benefit of both sides and I am sure that this year's MAKs will provide further progress.

Germany is at the cutting edge of aerospace technology. One out of every six new passenger aircraft produced globally is being delivered in Germany to airlines from around the world. Moreover, every new aircraft built anywhere in the world contains

German technology, which highlights the technological advances of our supplier industry.

Similarly, our country is home to leading manufacturers in satellite technology, military aviation, engines and helicopters. In short: thanks to innovation, Germany is one of the leading aerospace nations in the world.

At MAKs you can get a picture of our scope of competences. Eight companies are united at the BDLI-Business Lounge in hall F3, stand number 7. Another three BDLI members will have individual displays.

With its presence, the German aerospace industry at the same time promotes the ILA Berlin, which will take place from April 25 to 29, 2018. ILA has become synonymous with Innovation and Leadership in Aerospace and will again be taking a close look at topics of major importance for the future of our globally active sector.

We are looking forward to seeing you at this year's MAKs - and come and visit us next year at ILA Berlin!

Best regards,

Volker Thum
Managing Director, German Aerospace Industries Association (BDLI)

EXHIBITORS OF THE GERMAN BUSINESS LOUNGE

ALTHOM GMBH

Schnackenburgallee 117
22525 Hamburg, Germany
Phone: +49 40 4130798-02
info@althom.de
www.althom.de/en

ALTHOM is uniquely qualified to assist aviation and aerospace manufacturers in the critical process of producing technical publications to meet regulatory requirements. By access to low-cost development and production capabilities in combination with German project management and quality assurance as a service, ALTHOM offers best value for money. ALTHOM is DIN EN/AS 9100 certified.

BDLI - GERMAN AEROSPACE INDUSTRIES ASSOCIATION

Friedrichstr. 60
10117 Berlin, Germany
Phone: +49 30 206140-0
contact@bdli.de
www.bdli.de

CONNECTING WORLDS – SAVING LIVES.

It is our mission to connect worlds, save lives, and master major challenges. We consider this to be our responsibility. The German aerospace industry is successful globally due to its track record of innovation and creating cutting-edge technologies. The German Aerospace Industries Association (BDLI) is the primary industry representative for the aerospace sector in Germany.

As the voice of German aerospace, BDLI engages in dialogue with political institutions, authorities, trade associations and governments at home and abroad. Representing more than 230 companies, it offers a wide array of member services, and is the trademark owner and co-organiser of the ILA Berlin Air Show.

BERGER HOLDING GMBH & CO. KG

In der Neuen Welt 14
87700 Memmingen, Germany
Phone: +49 8331 930 01
berger-holding@aberger.de
www.aberger.de

Berger moves. People. Machines. Technology.

Founded in 1955, the Berger group has succeeded in becoming the worldwide largest family-owned manufacturer of precision machined parts. The enterprise has 2.500 employees in 11 locations in Germany, Poland, Canada, USA and China.

Today, as premium supplier no. 1 for complex ready-to-install components and assemblies Berger is the driving force behind many reputable customers from all over the world.

BROETJE-AUTOMATION GMBH

Am Autobahnkreuz 14
26180 Rastede, Germany
Phone: +49 4402 966 0
info@broetje-automation.de
www.broetje-automation.de

Broetje-Automation is the world's leading expert for highly automated and cost efficient production processes in the aerospace industry. Broetje-Automation's solutions include robotics, automated fastening machines as well as standard NC machines arranged as cells or assembly lines for airframe component production. Using this know-how we compose sustainable, efficient turnkey production solutions for all aircraft types.

ILA BERLIN/MESSE BERLIN GMBH

Messedamm 22
14055 Berlin, Germany
Phone: +49 30 3038 2276
z.ivan@messe-berlin.de

ILA Berlin

25 to 29 April, 2018, Berlin ExpoCenter Airport

Innovation and Leadership in Aerospace

With 1,017 exhibitors from 37 countries, over 50,000 trade visitors and 100,000 public visitors, with an internationally unique on-site conference program, the Space Hall and the International Suppliers Center ISC, clearly defined exhibit segments and B2B events at the last show in 2016, ILA Berlin Air Show remains one of the most forward-looking aerospace trade shows internationally, dealing with topics like sustainability, digitalization, 3D printing, Industry 4.0, start-ups and education.

JENA-OPTRONIK GMBH

Otto-Eppenstein-Str. 3
07745 Jena, Germany
Phone: +49 3641 200-110
info@jena-optronik.de
www.jena-optronik.de

For decades now we've been making space missions possible: Today we're the global leader for attitude and orbit control sensors for satellites and optical instruments for Earth observation.

Facing the future together: we're proud to count the world's leading space companies among our clients. What challenges in space are you facing? We are happy to help you reach your goal. And to give you what we stood for the past years: space for success.

MTU MAINTENANCE HANNOVER GMBH

Muenchner Str. 31
30855 Langenhagen, Germany
Phone: +49 511 7806-0
info@mtu.de
www.mtu.de

MTU Maintenance is the world's largest independent provider of engine services and a trusted OEM network partner. As engine experts, we offer a wide range of individually-tailored solutions encompassing innovative MRO services, integrated leasing and asset management. Our programs span the entire life cycle of an engine, providing customers with minimized operational costs and maximized engine value. With 30 plus engines in our portfolio and having completed more than 17,000 shop visits in just over 36 years, we have the necessary technical experience and market knowledge to make all the difference. We listen to our customers, understand their needs, and develop solutions with them – that is what being a true alternative means to us.

OHB SE

Karl-Ferdinand-Braun-Str. 8-9
28359 Bremen, Germany
Phone: +49 421 202-08
pr@ohb.de
www.ohb.de

The mid-size German space systems company OHB System (a subsidiary of OHB SE) works with leading national and international partners and is one of the major independent forces in the European aerospace industry. OHB System AG specializes in low-orbit and geostationary small satellites for the whole range of typical space-based applications. At two sites in Bremen and Oberpfaffenhofen near Munich, more than 1,000 highly professional specialists and system engineers build the company's future.

SLM SOLUTIONS GROUP AG

Roggenhorster Str. 9c
23556 Lübeck, Germany
Phone: +49 451 160820
info@slm-solutions.com
www.slm-solutions.com

Lübeck-based SLM Solutions Group AG is a leading provider of metal-based additive manufacturing technology. SLM Solutions focuses on the development, assembly and sale of machines and integrated system solutions in the field of selective laser melting. SLM Solutions currently employs over 320 members of staff in Germany, the USA, Singapore, Russia, India and China. The products are utilised worldwide by customers in particular from the aerospace, energy, healthcare and automotive industries.

MORE EXHIBITING BDLI MEMBERS

GERMAN AEROSPACE CENTER (DLR)

Linder Höhe
51147 Cologne, Germany
Phone: +49 2203 601-0
contact-dlr@dlr.de
www.dlr.de/en

DLR at a glance

DLR is the national aeronautics and space research centre of the Federal Republic of Germany. Its extensive research and development work in aeronautics, space, energy, transport and security is integrated into national and international cooperative ventures. In addition to its own research, as Germany's space agency, DLR has been given responsibility by the federal government for the planning and implementation of the German space programme. DLR is also the umbrella organisation for the nation's largest project management agency. DLR has approximately 8000 employees at 20 locations in Germany: Cologne (headquarters), Augsburg, Berlin, Bonn, Braunschweig, Bremen, Bremerhaven, Dresden, Goettingen, Hamburg, Jena, Juelich, Lampoldshausen, Neustrelitz, Oberpfaffenhofen, Oldenburg, Stade, Stuttgart, Trauen, and Weilheim. DLR also has offices in Brussels, Paris, Tokyo and Washington D.C.

HYDRO SYSTEMS KG

Ahfeldstr. 10
77781 Biberach, Germany
Phone: +49 7835 787-0
info@hydro.aero
www.hydro.aero

For more than 50 years, HYDRO has been supporting the aviation industry with innovative solutions for the maintenance, repair and assembly of aircraft and engines. With worldwide locations HYDRO is close to any major airframe OEM, airline and MRO. Business areas include: Ground Support Equipment, Airframe & Engine Tooling, Engine Transportation, Engineered Solutions, and Service.

ROHDE & SCHWARZ GMBH & CO. KG

Muehldorfstr. 15
81671 Munich, Germany
Phone: +49 89 4129 12345
customersupport@rohde-schwarz.com
www.rohde-schwarz.com

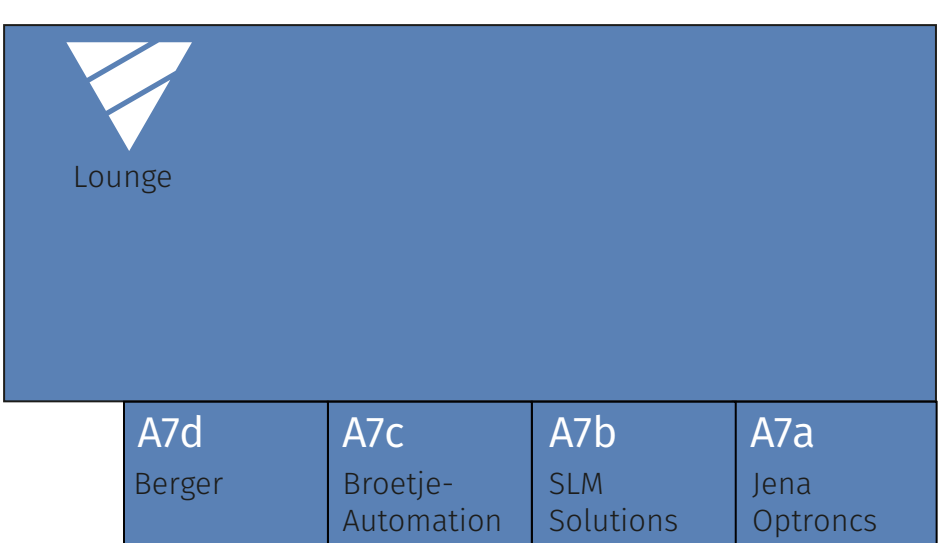

Rohde & Schwarz is one of the world's leading manufacturers of electronic test and measurement and communications equipment. Our solutions for secure radiocommunications, radiomonitoring and test and measurement support all branches of the armed forces in fulfilling their missions and help keep aviation safe. The more than 7000 airborne radios delivered demonstrates the great trust placed in the company. Our solutions are software defined, interoperable and have crypto protection to the highest classification levels. Convince yourself of the effectiveness of the innovative and field-proven communications, surveillance and security solutions:

- Secure airborne radiocommunications for use in airborne fixed-wing and rotary-wing platforms
- Reliable detection and disruption of commercial drones
- Cybersecurity solutions in air traffic management
