BDLI TRADE SHOW GUIDE DUBAI AIR SHOW 2017

Dubai | November 12-16
DWC, AIRSHOW SITE

Dear Visitors,

it is a great pleasure for me to welcome you to this year's presentation of the German Aerospace Industry at the Dubai Airshow 2017. We are very glad to be part of the exhibition again!

Running from November 12 to 16, 2017, the 15th Dubai Airshow is the foremost aerospace event in the Middle East.

Germany is at the cutting edge of aerospace technology. One out of every six new passenger aircraft produced globally is being delivered in Germany to airlines from around the world. Moreover, every new aircraft built anywhere in the world contains German technology, which highlights the technological advances of our supplier industry. Similarly, our country is home to leading manufacturers in satellite technology, military aviation, engines and helicopters. In short: thanks to innovation, Germany is one of the leading aerospace nations in the world.

With its presence, the German aerospace industry at the same time promotes the ILA Berlin, which will take place from April 25 to 29, 2018. ILA has become synonymous with Innovation and Leadership in Aerospace and will again be taking a close look at topics of major importance for the future of our globally active sector.

We are looking forward to seeing you at this year's Dubai Airshow - and visit us next year at ILA in Berlin, the heart of Europe.

Best regards,

Volker Thum
Managing Director,
German Aerospace Industries Association (BDLI)
